INFORMATION TECHNOLOGY SUBJECT MATTER EXPERT
INFORMATION TECHNOLOGY DIVISION – CORE-CT

PLEASE FOLLOW THE SPECIFIC APPLICATION FILING INSTRUCTIONS AT THE BOTTOM OF THIS PAGE!

Open To: Candidates on a current examination list.
Location: 55 Farmington Avenue, Hartford, CT
Job Posting No: **#89774**
Hours: Full-Time (35 hrs/Week)
Salary: $82,662 (EU 32) Starting Annual Salary

Closing Date: **October 1, 2014** - Application materials must be received by 5:00 p.m. by this date

The Office of the State Comptroller (OSC) is currently seeking qualified candidates to fill an **Information Technology Subject Matter Expert** position in the Information Technology Division. This position is accountable for functioning as a Subject Matter Expert in networking, security and systems development. This position also provides technical leadership and consultation in the areas of architecture, systems programming and system integration and the analysis, development and operational support of highly complex technologies affecting multiple infrastructure areas.

Eligibility Requirement: Candidates must have applied for and passed the **Information Technology Subject Matter Expert** exam and be on the current certification list promulgated by the Department of Administrative Services for this classification. State employees currently holding the above title or those who have previously attained permanent status may apply for lateral transfer. Applicants will not have the opportunity to take the exam prior to the above closing date to qualify for this particular vacancy.

Examples of Duties: Responsible for Linux server administration supporting multi-site Oracle high availability databases configured for optimal performance and reliability; administer enterprise–level SAN storage hardware, software and supporting fabric administration across highly complex multi-site environments; configure and maintain F5 / LTM load balancing across multiple locations; evaluate, test and apply updates and new releases; participate in complex infrastructure design to optimize system performance, integrity and network access; participate in the definition of data architecture standards and policies; develop and maintain system and application architecture diagrams; recommend new tools and technologies; develop and maintain technologies needed to support disaster recovery system; develop and maintain operational data stores and data marts; coordinate maintenance tasks with vendors, performs other related duties as required.

Preferred Experience and Skills:
- **Expertise in system level (Linux) and SAN infrastructure (EMC or IBM SAN attached storage, Fiber Channel switch technology and configuration, etc.). Expertise with SAN enterprise-level storage hardware, software and supporting fabric administration.**
- **Experience supporting at least one of the following: Oracle RAC database environments, Oracle Exadata, Oracle/PeopleSoft 9.x or higher and PeopleTools 8.52 or large ERP application environments.**
- **Knowledgeable in the installation, configuration and testing of fixes, patches and security updates to the Linux operating system and services. Knowledge of Yum and RPM patching methodology.**
- **Expertise in server backup and recovery tools; TSM preferred.**
- **Experience with complex server capacity planning, performance monitoring, tuning and optimization.**
- **Expertise with UNIX scripting.**
- **Expertise with F5 network load balancing configuration and administration. Knowledge of load balancing technologies and best practice for various F5 modules, basic knowledge of F5 iRule programming and general troubleshooting and monitoring practices.**
- **Familiarity with Web technologies including: Weblogic, Oracle HTTP Server, Tuxedo, IIS. Experience with support of complex web hosting network architectures.**
- **TCP/IP network experience including DNS, routing protocols, network switch configuration, VLAN technologies.**
- **Experience with Linux files systems, security practices, and monitoring tools.**

Note: The filling of this position will be in accordance with reemployment, SEBAC, transfer, promotion and merit employment rules, if applicable.

Application Instructions: Interested and qualified candidates who meet the above requirements must submit a cover letter, a resume, three (3) letters of professional references form current and/or previous supervisors and a completed signed State Application Form (Form CT-HR-12 – available at: http://das.ct.gov/HR/Forms/CT-HR-12_application.pdf . Indicate the job posting number on the application form. State employees must include copies of their last three (3) Performance Evaluations in lieu of references no later than the

closing date at the top of this announcement to:
